Dan -

In my hurry to finally hit "send" on Friday, I didn't wait until Dave had finished all the work on the Figures for this draft, pre-decisional document. He took a chunk of his Saturday and finished up so I wanted you to get a more complete document to consider.

Therefore, please find attached, and to replace the documents I sent on Friday evening, the pre-decisional draft of the JGPO 3 BO with a separate attachment with the complete Appendix A - Figures. We were also able to add one reference for one of the pictures from the recent (March 2016) JRM/UoG interim plant survey report.

Please let me know if you have any questions.

Mary
